MICROSCOPE ASSEMBLY AND
METHOD FOR MAKING
SPECTROPHOTOMETRIC, NEAR-
FIELD, AND SCANNING PROBE
MEASUREMENTS

Customer No. 20350

Examiner: Thanh X. Luu

Art Unit: 2878

INFORMATION DISCLOSURE
STATEMENT UNDER 37 CFR §1.97 and
§1.98

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

The references cited on attached form PTO/SB/08A and PTO/SB/08B are being called to the attention of the Examiner. Copies of the references [in compliance with the requirements of 37 CFR §1.98(a)(2)] are enclosed. It is respectfully requested that the cited references be expressly considered during the prosecution of this application, and the references be made of record therein and appear among the "references cited" on any patent to issue therefrom.

The four Japanese references cited in this Information Disclosure Statement came to Applicant's attention after the issue fee was paid on January 25, 2006. This Information Disclosure Statement is being filed along with a Petition to withdraw the application from issue and an RCE.

The four Japanese references were cited in a recent office action in a Japanese counterpart application. The Japanese application includes claims 1-14, which correspond to claims 29-42 as originally filed in this application. The cited U.S. patent corresponds to a Japanese reference that was cited in an earlier office action in the Japanese application.

As provided for by 37 CFR §1.97(g) and (h), no inference should be made that the information and references cited are prior art merely because they are in this statement and no representation is being made that a search has been conducted or that this statement encompasses all the possible relevant information.

Applicant believes that no fee is required for submission of this statement. However, if a fee is required, the Commissioner is authorized to deduct such fee from the undersigned's Deposit Account No. 20-1430. Please deduct any additional fees from, or credit any overpayment to, the above-noted Deposit Account.

Respectfully submitted,

David N. Slone
